

● LIVE VIDEO EQUIPMENT

Below is a list of the equipment we recommend for optimal livestream quality. You can review additional information about livestreaming in this **Google Slides** presentation.

MOBILE LIVESTREAM KIT

iPhone/iPad/or Android Devices

SwitcherGo App for iPhone or iPad (Free)

- Go live HD to YouTube Now or Facebook Live
- Add pre-recorded media from camera roll.

iOgrapher Case for iPhone 6/6s/7 **or**

iOgrapher Case for iPhone 6/6s plus **or**

iOgrapher Go Case for Android/GoPro/iPhone

Tripods

Manfrotto Compact Action Tripod **or**

iOgrapher Flex Mini Tripod

Audio

Samson Wireless X1U Handheld mic (good for interview with two people on camera or one direct reporting) with Lightning to USB Adaptor

Samson Stage XPD1 Wireless Wireless Lav (good for interview with subject on-camera) with Lightning to USB Adaptor

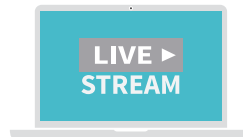

Rode Video Micro Shotgun Mic (good for interviews without having to mic the subject with a lav mic)

Lighting

Manfrotto Lumimuse On-camera light

DESKTOP COMPUTER LIVESTREAM KIT

Laptop with built-in webcam or Desktop Computer

- External 720p+ HD camera if computer does not have built-in camera.
- At least 4-8GB RAM memory
- OBS (Open Broadcast Software) for Windows or Apple (Free)
 - OBS Beginner Tutorial

Recommendations:

- USB condenser microphone to connect to computer to reduce audio echo.
 - For Beginners: Shure MV5 Digital Condenser
